

Beverly Community Hospital respectfully requests that visitors follow these expectations when visiting:

We trust you to help us keep our patients safe.

Any non-patient who has shortness of breath, fever, or cough, or who has been in contact with someone who has COVID-19 or is being tested for COVID-19 should not enter Beverly Hospital or other campus buildings.

We continue to require people who come to Beverly Hospital and campus buildings to wear a facemask that covers their nose and mouth at all times and to practice other prevention efforts like physical distancing, even if they are fully vaccinated.

- If you do not have a facemask, we will provide you one at facility entry.
- If you cannot wear a mask for medical reasons, please talk to a staff member about reasonable accommodations.
- Visitors should wash or sanitize their hands when entering and exiting the patient's room.
- Due to infection control risks, visitors are to not use the patient's bathroom, shower nor lie down in the patient's bed.
- Visitors will not physically or verbally threaten any person and we will not tolerate disruptive language or violent behavior.
- Weapons are not permitted within Beverly Hospital or other campus buildings
- We ask that you leave any weapons in your vehicles.
- Possession and/or use of street drugs and alcoholic beverages are not permitted on the property.
- The hospital has the right to restrict visitation based on an individual's behavior, and any other circumstances as deemed inappropriate by the hospital's administration.
- Visitors who do not comply with this Code of Conduct can/will be escorted off the property.

Our staff is dedicated to providing the highest quality of care to our patients. Please show them the respect they deserve as they carry out their duties to care for your loved one.

Thank you for your cooperation.
